PROFESSIONAL EXPERIENCE

Gets Transportation   **September 2017 - Present**
Owner Operator Truck Driver

Results-oriented owner-operator with a proven track record in managing complex logistics for efficient and timely deliveries. Transitioning from a successful career in trucking to pursue a challenging role in the tech industry.

Accomplishments:
- Implemented strategic route optimization, reducing fuel costs by 25% and improving delivery times.
- Leveraged strong organizational skills to coordinate with suppliers, warehouses, and clients, ensuring seamless operations.
- Established and maintained positive relationships with clients, resulting in repeat business and referrals.

Coding Minds, Inc.   **March 2022 - August 2022**
Coding Instructor

Empowered budding coders to create imaginative digital projects using HTML, CSS, and JavaScript. Fostered a love for coding through hands-on, project-based learning that sparked curiosity and celebrated student achievements.

Projects:
- Landing Page - Built a trombone landing page using fcc's curriculum as practice for HTML and CSS
- Newspaper - Created a newspaper layout for practice with layouts using HTML, CSS, and Bootstrap
- Birthday Countdown - Learned and implemented JS concepts into this project to estimate time remaining until specified date.
- Cat Image Generator - Integrated an external API and added functionality using JS, HTML, and CSS.
- Wordle Clone - Final Project, Students collaborated as pair programmers where they built the wordle app from scratch.
